

The Experts in Authorised VMware Training

We schedule and deliver more sessions of VMware authorised courses across Europe, the Middle East and Africa (EMEA) than any other VMware Authorised Training Partner. VMware's Global Education Partner of the Year for three years running, we provide expert training on the latest releases of VMware products, including vSphere, View, vCenter and vCloud.

Authorised VMware Content – Authorised Instructors

As a VMware Authorised Training Partner, we use only authorised VMware content. That means our courses meet the educational requirements for VMware certification and you will always be trained on the latest releases. Furthermore, all our courses are taught by VMware Certified Instructors (VCIs). Each instructor undergoes a rigorous preparation program and receives ongoing support from VMware, ensuring that you learn from a true VMware expert.

Train Face-to-Face with a VMware Expert

We offer authorised VMware training in various locations across EMEA. All our Classroom Learning courses are taught face-to-face by a VCI, enabling you to get the personal attention and interaction needed for a complete learning experience. If you can't make it to the classroom or prefer to train online, our Virtual Classroom e-Learning sessions are the answer. You'll receive the same expert VMware content as in our Classroom Learning sessions, delivered live over the Internet by a VCI.

Prepare for VMware Certification

Achieving VMware Certified Professional (VCP) certification demonstrates your expertise in a virtual infrastructure and increases your potential for career advancement. The high standards expected of a VCP make it a sought-after certification. To become a VCP, VMware requires that you attend authorised VMware training. Our courses are VMware authorised and meet the educational requirements for VCP certification. We also offer courses that support other VMware certifications, including VMware Certified Professional – Desktop (VCP-DT), VMware Certified Advanced Professional on vSphere – Datacenter Administration (VCAP-DCA), VMware Certified Advanced Professional for vSphere – Datacenter Design (VCAP-DCD), and VMware Certified Design Expert (VCDX).

VMware Education Partner of the Year

We are the only training provider to be recognised as VMware's Education Partner of the Year three years in a row. We're honored to have received the award for performance in 2009, 2010, and 2011.

Redeem VMware Consulting and Training Credits

We accept VMware Consulting and Training Credits (PSO Credits). For more information about credits and redemptions, please visit www.globalknowledge.net/psa.

Why Choose Global Knowledge?

Why Choose Us for Your IT and Business Training?

Global Knowledge is the worldwide leader in IT and business skills training. No other training provider is as dedicated as we are to providing customers with the absolute best training experience. With our unique brand of IT and Business Training, you can:

Learn from the Best Instructors

- More VCP, VCAP, MCSE, MCSA, MCITP, CCIE and CCSI instructors than any other training provider.
- Our Project Management course instructors are experienced and certified professionals.
- Many of our instructors are also consultants, bringing their real-world knowledge, tips and best practices into the classroom.

Engage with Custom, Hands-On Labs and Exercises

- Vendor Official courseware is enhanced with custom labs and exercises to maximise hands-on training and dramatically improve your learning experience.
- Millions of euros are invested in the latest equipment, enabling you to configure and troubleshoot cutting-edge routers, switches, IP phones, optical and security equipment and much more.
- Our Business Training courses feature in-class case studies and exercises so you can practice what is taught.

Choose from Robust Delivery Options

- Premium content and expert instruction are offered via open-enrollment classrooms; live web-based virtual classrooms; private on-site instruction; and self-paced learning on CD.
- We also can provide a tailored, collaborative learning solution that best meets your needs.

Train Your Entire Team or Company with Our Worldwide Solutions

- Classroom training centres located in 23 countries; online and on-site instruction worldwide; courses can be taught in 11 different languages.
- Proven capability to deliver timely, consistent, and high-quality training solutions to the individual, to teams, and to a globally dispersed workforce.

Select from More Than 1,200 Courses

Our broad and deep training portfolio spans foundational and specialised training and certifications.
