

Office 365 Ignite Workshop

Varighet: 4 Days Kurskode: O365I

Beskrivelse:

Introducing the next generation of cloud based computing, Microsoft Office 365: The integrated on-line cloud based solution for businesses of any size. From a single easy to manage portal, users and assigned administrators can manage every aspect of their business using familiar tools such as SharePoint On-Line, Exchange On-line and Lync to provide users with an easy to use collaborative platform with no outlay costs for expensive equipment or infrastructure.

Målgruppe:

Designed for early adopters this four day course will not only teach you the essential skills required to configure, manage, deploy and troubleshoot the Office 365 platform. You will also learn how to migrate and co-exist your current infrastructure to the cloud using tools such as Active Directory Federation Services and Directory Synchronisation.
